

Applying for Phase 4 of the Provider Relief Fund & the ARP Rural Distribution

Webinar Q&A Follow-Up

Application Details

Step 1: TIN Validation

- *Tip: Get started now! Your TIN validation could take up to 10 days, although many RHCs are sharing that their TIN was validated within 24 hours. Application [here](#).*
- *Applicable DOH or National License Number or Certification Number = CCN*
- *Medicaid ID Tip: Use format 2 letter state abbreviation – numerical value (do not include final letter value). You can also call your state Medicaid office for assistance.*
- *Applicants must include **all** billing TINs that provide patient care under the filing TIN and include an exhaustive list of TINs and must ensure that all TINs included in the application belong to the filing TIN that is applying.*
- *In general, applications must be submitted at the parent or filing TIN level (entity that files federal income taxes).*
 - *You will enter all subsidiary TINs on the same application.*
- *TIN Validation Error: "cannot read properties of undefined (reading "filter")" – should be resolved by HRSA soon. Please keep attempting in the portal or call the Provider Support Line 866-569-3522.*
- *What if another member in your organization has the One Healthcare ID.? Is there a way to add another user, or is it just one user per TIN?*
 - *Only one person can serve as the program administrator per TIN. This administrator accepts responsibility to act on behalf of their organization and must agree to make their name available to others within their organization. This person may reassign or transfer their administrator role to a new individual in their organization with an One Healthcare ID at any time by calling (866) 569-3522: for TTY dial 711. New administrator processing can take 1-2 business days to complete.*

Applying for Phase 4 PRF versus Applying for ARP Rural Allocation

- *Entities will apply for both the ARP Rural Allocation and the PRF Phase 4 Funding within one application although the funding will be allocated separately.*

Other Questions

- *“Can we use some of the money to pay taxes on this money since we will get it so late in the year and we won’t have time to have spent it but it will be treated as income and be taxable?”*

- Yes, HHS considers taxes imposed on Provider Relief Fund payments to be “healthcare related expenses attributable to coronavirus” that are reimbursable with Provider Relief Fund money, except for Nursing Home Infection Control Distribution payments.
- “What documentation do I need as a new provider?”
 - Follow the instructions at the bottom of this [page](#). It is unclear at this time if new 2021 providers are eligible.

If you have any additional questions please contact Sarah Hohman, Deputy Director of Government Affairs at Sarah.Hohman@narhc.org.
