

COVID-19 At-Home Test Kit Guidance

To use a COVID-19 at-home diagnostic test, please follow the instructions inside the test kit provided by the manufacturer. After you have received a test result, please review the guidance below.

IF YOU TEST POSITIVE

Follow current CDC guidelines for isolation instructions. Visit [cdc.gov](https://www.cdc.gov), or use this QR code here:

Next, notify your local health department of your positive test result. If symptoms get worse or do not improve, please contact a health care provider.

IF YOU TEST NEGATIVE

Please retest in 24 hours. Follow your local health department's guidelines if you have been exposed to someone with COVID-19.

Please read the attached EUA instructions for further guidance.
