Private practice providers and administrators take on additional responsibilities to manage operations and ensure quality patient care, making time management essential. Inefficient credentialing, scheduling, and workflows waste valuable time. QGenda streamlines operations and optimizes your workforce so that practice group providers can deliver the best possible patient care.

The Compliance Team is a woman-owned and operated accreditation organization. Not just any woman, but a nurse who strongly believes in simplification. Now, one automatically thinks that simplification means easy; however, in this case, it's about plain language embedded in comprehensive quality standards that simplify the understanding of the program requirements. Our Rural Health Clinic and Patient-Centered Medical Home programs are designed to guide you through the process of becoming accredited, which leads to being labeled as EXEMPLARY through National Recognition.

With ThoroughCare, you can simplify complex reimbursements, streamline value-based care, and strengthen high-value home health. ThoroughCare's easy-to-use software allows RHCs to participate in Medicare reimbursement programs like Chronic Care Management (CCM). With these programs paying over \$67 per patient per month, there's no reason to miss out, especially since ThoroughCare's software makes it simple for your staff to manage.
